DETAILED ACTION

1. This Office Action is made in response to applicant's terminal disclaimer filed on 4/29/2009. Claims 1, 3-10, 12-17, 34, 36-42, 44-50, and 52 are currently pending in the application. An action follows below:

Allowable Subject Matter

2. Claims 1, 3-10, 12-17, 34, 36-42, 44-50, and 52 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method of driving an electrophoretic display device using a specific driving waveform. Independent claims 1, 34, and 36 identifies the uniquely distinct features driving pixels undergoing a zero transition and a non-zero transition simultaneously for the entire display and having all pixels driven by a waveform having a last non-zero voltage period terminating at substantially the same time. The closest prior art, Zhou (USPgPub: 2005/0179641) and Ando et al. (USPN: 7106277) disclose methods of driving pixels with waveforms with final non-voltage periods terminating at the same time, but not all pixels of the display undergoing both non-zero and zero transitions, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Independent claim 41 identifies the feature "for all pixels undergoing on-zero transitions, the waveform is of the form $-x/\Delta IP/x$, where ΔIP denotes a difference in impulse potential between the final and initial states of the waveform, while $-x$ and x represent a DC balanced pair of pulses". The closest prior art, Verhulst (USPN:

Art Unit: 2629

5684504) and Katase (USPN: 7019889) disclose timing pulses that start at the same time for an entire display, but not end at the same time, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven E. Holton whose telephone number is (571)272-7903. The examiner can normally be reached on M-F 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bipin Shalwala can be reached on (571) 272-7681. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
